Helpful tools

Creating new accounts on torrent sites requires a new e-mail. Here is a service that can provide this instantly. <http://10minutemail.com/10MinuteMail/index.html>. If you visit one of these websites you will find a temporary e-mail address that you can use to register the account. Confirmation e-mail will then turn up automatically on 10minutemail website.

Some other similar services:

- <https://www.guerrillamail.com/inbox>
- <http://getairmail.com/>

Being able to easily change IP address will be a key to successful posting. Some services that supports this are:

- <http://hidemyass.com/>
- <http://proxify.com/>
- <http://btguard.com/>
